Flashlight - Big Ed™ 3700 Photoluminescent Flashlight

Marque: PELICAN

Ref Product: wire:3700PL

Ref Mcmining: PELICAN3700PL

DESCRIPTION

Big Ed™ 3700 Photoluminescent Flashlight Designed for the firefighter, the Big Ed is the choice of flashlight for the turnout gear. The unbreakable ABS body resists chemicals, water, and corrosion.

Rubber side grips prevent slipping and the push button switch on the side is easy to operate, even with thick gloves. For hands-free use, a heavy duty stainless steel clip is built in.

The 3700 uses a hi-intensity Xenon lamp that produces a beam strong enough to cut through thick smoke and dust. A back-up emergency lamp is housed behind the reflector. Battery replacement is easy with its quick change battery ejection system.

Big Ed™ 3700 Photoluminescent Flashlight is Outfitted with a lens ring that emits a bright glow in the dark.

The new generation photoluminescent material in the plastic absorbs the energy from any light source - fluorescent lights, the sun, or even the flashlight\'s own beam.

No more fumbling in the dark for your flashlight. The Big Ed 3700PL is powered by 4 C alkaline cells.
