LEADER IN INDUSTRIAL TOOLS & EQUIPMENT

Technical sheet

Chisel - 1" Super-Duty Cold Chisel

Marque: PROTO

Ref Product: wire:J86001

Ref Mcmining: PRJ86001

Features and benefits	
- Made from S2 steel and specially heat-treated for greater strength and durability. - Hand ground cutting edge to the exact angle for cutting through tough metals. - 20% larger striking surface than standard chisels directs the power to the cutting edge. - Longer shank features a knurl for better grip and easy positioning. - Black oxide finish to help prevent rust corrosion; extending tool life and performance.	
Specifications	
Tip Width [in]	1
Shank Width [in]	7/8
Blade Length [in]	3-5/16
Knurl Length [in]	1-1/8
Striking End Diameter	31/32
Striking End Length	1-3/8"
Overall Length [in]	10-1/16
Weight [Lbs]	1.46
Specifications ASME	ASME B107.47M
