Technical sheet

Abrasive - Disc STARLINE - Cutting-Off - grinding wheels 230x2,0x22,23 mm

Marque: NORTON

Ref Product: wire:66252837248

Ref Mcmining: NOR66252837248

Description
Â Cutting-Off and grinding wheels for angle grinders- 230x2,0x22,23 mm
norton has a global reputation for its high quality, job focused abrasive products. norton starline products are characterised by a good performance with an excellent price/performance ratio. norton starline wheels are suitable for grinding and cutting-off steel, stainless steel, grey cast iron and stone.
features
- universal applications
- new capabilities in metal work
- Optimized to work with low and power machines
- safety
- effortless and free cutting
- Optimal quality to price ratio

Benefits
- universal and complete product ran developed for low power machines
- works with all applicable angle grinders
- fast metal removal
- Comfortable in use
- low vibration
- no wheel chipping during grinding
Technical specification :
Dim : 230x2,0x22,23 mm
M/s : 80
Specification : a36r-Bf41
Type : 41
Product uses : Metal Inox
