Description

Ampco non-sparking products are intended for use in areas where a high risk of fire or explosion exists,as in the presence of flammable gases or liquids.Non-magnetic Ampco tools are recommended in military applications,Â mine clearance operations and in the medical field, for MRI and other scanning equipment or equipment using large magnets. Outstanding corrosion resistance also make Ampco tools the professional's choice in the most demanding and aggressive environments,on land or water.

Adjustable wrenches are designed to provide a wide range of capacity in a single tool and are a convenient wrench for service and repairmen, linemen, etc. They are not intended to replace fixed opening wrenches for production or general service work.

Do not use an adjustable wrench to free a "frozen" nut or to final tighten a nut. Never pull on a loosely adjusted wrench. Never use a hammer or extension on this wrench.
