Proto Miniature C-Clamps w/ Swivel Pads - 6-1/2"

Marque: PROTO

Ref Product: wire:J269XL

Ref Mcmining: PRJ269XL

Specification:	- Small in size for delicate and fine work. - Made of quality alloy steel for long life. - High corrosion resistant finish with welding spatter resistance. - Precisely machined teeth for a positive grip and to help prevent slippage. - Locking mechanism helps leave both hands free when clamping, helping to eliminate squeezing action and general hand fatigue when manipulating. Also helps to save time in repetitive jobs. - Tip of release lever projects at end of handle for a safe, quick, no-pinch, powerful release especially when tools are firmly locked. - Spring loaded release lever is out of the way when handling. - Drop forged jaws and rugged tooth profile for durability and toughness. - Holes in mobile jaw are drilled and not press punched to ensure they are cylindrical to ensure maximum bearing with rivets. (Punched holes tend give poor bearing.) - Large diameter of rivets to help permit secure joints adding to the durability and robustness of the tools. - Piano wire spring for smooth and efficient jaw opening. - Jaw Opening: 1-61/64" - Jaw Depth: 1-61/64" PROTOMINIATURE C-CLAMPS w/ SWIVEL PADS - Knurled swivel pads- Allow non-slip no damage parallel clamping even on tapered surfaces. For electronics.
Size :	Length 6-1/2",165.1mm Jaw Width 3/4"
Weight lbs. :	Weight 0.6 lbs, 0.27 kilos
