Punch - 5/16" Center Punch

Marque: PROTO

Ref Product: wire:J415/16

Ref Mcmining: PRJ415/16

Features and benefits	
- Application: metal working layout. Provides a broad dent in marking intersecting center lines, hole locations, and pilot drill starting point. - One-piece design for strength and durability. - Made from S2 steel and specially heat-treated for greater strength and durability. - Modified parabolic striking end to help reduce mushrooming and chipping. - Black oxide finish to help prevent rust corrosion; extending tool life and performance. - A polished identification panel on one of the flats is marked with the tool number and size in a black inlay.	
Specifications	
Shank Width [in]	5/16
Overall Length [in]	4-5/8
Weight [Lbs]	0.09
Specifications ASME	ASME B107.48
