LEADER IN INDUSTRIAL TOOLS & EQUIPMENT

Technical sheet

Chisel - 1/2" Super-Duty Cold Chisel

Marque: PROTO

Ref Product: wire:J86012

Ref Mcmining: PRJ86012

Features and benefits	
- Made from S2 steel and specially heat-treated for greater strength and durability. - Hand ground cutting edge to the exact angle for cutting through tough metals. - 20% larger striking surface than standard chisels directs the power to the cutting edge. - Longer shank features a knurl for better grip and easy positioning. - Black oxide finish to help prevent rust corrosion; extending tool life and performance.	
Specifications	
Tip Width [in]	1/2
Shank Width [in]	7/16
Blade Length [in]	2-1/8
Knurl Length [in]	1-1/8
Striking End Diameter	1/2
Striking End Length	1-1/4"
Overall Length [in]	6-13/16
Weight [Lbs]	0.26
Specifications ASME	ASME B107.47M
