Technical sheet

BAREFOOT Firefly Solar Lamp and Panel Phone Charger

Marque: BAREFOOT

Ref Product: wire:bf-firefly

Ref Mcmining: LAMPSFIREFLYMOBILE

Specification
Barefoot Firefly Solar Lamp and Panel Phone Charger

The Firefly series of affordable portable lighting and phone charging solutions combine efficient LED lighting with long lasting lithium iron phosphate batteries that are rated to last for 1000 cycles.
By placing the panel in the sunshine and then running the 5 metre cable to your phone you can recharge a 700mAh phone battery within 2 hours of sunshine.
Â The six adaptors included will fit most phones including entry level smart phones.
Technical specification
Bright 65- lumen LED Lamp
24-month warranty on all components
Multiple light settings low (50 hours)
medium (7 hours) and high (5 hours)
Panel phone-charging kit included
Charging indicator will illuminate when the battery is charging
Versatile design can be use in multiple positions
1.5W solar panel can be use to power both the lamp, or a mobil phone
0.75Ah LiFePO4 Battery
