Technical sheet

Abrasive - Abrasive disc - diamond blade for Tile Cutting Diam 125mm

Marque: DEWALT

Ref Product: wire:DT3736

Ref Mcmining: DEWALTDT3736

Description
Continuous rim sintered diamond blade for Tile Cutting
DT3736
Contain a high concentration of top quality diamonds for excellent cutting performance in extremely hard materials
Continuous rim sintered blade for fine finish in tiles and ceramics
High quality, low carbod steel core reduces distortion at high temperatures, giving better cutting performance and longer life
SPECIFICATIONS
Diameter : 125 mm
Bore : 22.2 mm
Thickness : 1.6 mm
Performance : Extreme
Applications : Cutting
