Mc MINING GROUPE PICHORI Quality First

LEADER IN INDUSTRIAL TOOLS & EQUIPMENT

Technical sheet

Saw blade - Mitre Saw Blade 216mm X 30mm Bore X 48 Teeth

Marque: DEWALT

Ref Product: wire:DT4320

Ref Mcmining: DEWALTDT4320

Features:
- DeWalt series 60 circular saw blades, high precision laser manufacture ensures a flat blade body
- Anti-vibration slots reduce plate distortion and engineered expansion slots prevent blade overheating and warping
- Extra-large carbide tips resharpenable up to 20 times
- For all purpose rip and cross cutting in natural wood , plywood laminates , particleboard , and MDF
- Alternate top bevel geometry positive rake angles allow the blades to cut at higher feed speeds
Product Specification
Barcode: 5035048057902
Blade Diameter: 216 mm
Bore Size: 30 mm
Plate Thickness: 1.8 mm
Kerf Thickness: 2.6 mm
Tooth Pitch: 14.1 mm
Tooth Count: 48
Grind Geometry: Alternate Top Bevel
Rake Angle: -5 Â°
