Technical sheet

Lifejacket Solid, Adult - SOLAS USCG/TC approved

Marque: VIKING - DENMARK

Ref Product: wire:PV9521

Ref Mcmining: GILSAUVPV9520-VIKI

DESCRIPTION

PV9521 is top of the line SOLAS solid lifejacket designed to be folded to take up minimal space when stored.
There is no dead buoyancy across the chest which means better freedom of movement for the user, which ultimately makes it easier to board the liferaft.
The lifejacket has a back panel which provides extra comfort, and a side entry which ensures easy donning.
It has an integrated donning instruction printed on the panel. The lifejacket is equipped with a crotch strap to ensure proper fit and performance after impact with water.
The waist belt is 175 cm according to MSC.200 regulations ensuring one-size fits all for both universal and oversize crew and passengers.
The lifejacket can be marked with customized marking of i.e. cabin number.

FEATURES
