Goggle - Flexy 6000

Marque: NORTH

Ref Product: wire:806005

Ref Mcmining: LUN806005-NORTH

Specification	Wide vision goggle with soft PVC frame with all round ventilation and hard coated medium energy (120m/s) lens. Molten metal tested. **MADE IN USA**
Material:	Lens: 1.8mm optically clear polycarbonate. Hard coated and Anti-mist treated. Frame: Clear flexible stabilised pvc
Certification:	EN166.1BKN39
Weight:	92 gr
Technical Performance	Impact resistance: 6mm steel ball at 120m/s Visible light transmission: 92% minimum. UV absorption: 99,5% up to 370nm. Chemical resistance: resistant to ingress of droplets, mist and spray; and materials resistant to attack by numerous solvents, acids, alkalis, oil and grease. Resistant to adherence hot solid and molten metal penetration in accordance with EN 166.(100gr - 7sec - 1450°). Application: Protects against impacts from flying particles of medium energy, liquid droplets, mist, crop spray and fine dust all accordance with cited standards.
Packaging:	Individual cartons in boxes of 247
