Air Supply Hoses & Couplers

Marque: NORTH

Ref Product: wire:886025

Ref Mcmining: MAS886025-NORTH

Specification:	
	HOSE ASSEMBLIES TO COMBINE 3/8" I.D. HOSE WITH COUPLER ASSEMBLY FOR CONNECTING THE AIR SUPPLY HOSE TO HOOD OR FACEPIECE North hoses are available for both 3/8" I.D. and 1/2" I.D. in 12 1/2', 25', 50', and 100' lengths. North offers Hansen, Schrader and Snap-Tite Quick Connect Couplers for connecting the hose to the facepiece or breathing hood, and the air source. Warning: If more than one hose is required, join the hoses together. Do not use couplers between hose lengths. Only one 12 1/2 ft. or 25 ft. length of hose should be used in combination with any hose length to a maximum of 300 ft. OSHA requires that couplers not be interchangeable with any couplers used for non-breathing air or gas systems. **MADE IN USA**
