COMBINATION ASD WRENCH SET - 12 POINT

Marque: PROTO

Ref Product: wire:J1241M

Ref Mcmining: PRJ1241M

Specification:	- Satin finish provides corrosion resistance and a slip resistant grip. - 12 point box end allows for fine indexing, helping to improve speed and access. Fits 4, 6 and 12 point fasteners. - Anti - Slip Design (ASD) Open End - Patented locking grooves help prevent the wrench from slipping off the fastener when turning. - The arched surfaces are designed to spread the contact forces over a greater area - Loads are kept off the corners of the fastener which helps prevent fastener rounding. - Metric sizes 9mm and smaller and sizes 36mm and larger do not have the ASD feature. - Box ends incorporate the TorquePlus™ system. - Proto® TorquePlus™ wrenches are ideal for use on stubborn or damaged fasteners, and also on fasteners made from soft materials. - The TorquePlus™ design is a high performance drive configuration which allows for quick and easy wrench engagement to the fastener flats, not the corners. - The TorquePlus™ configuration employs a radius - corner design, shifting contact area and stress away from the fastener corners and distributing contact stresses over a large area of the box end, minimizing slippage. - The TorquePlus™ internal design minimizes fastener rounding, helps to extend fastener life, and allows the user to more easily turn worn, rounded, or rusted fasteners.
Size:	41 mm - B: 51.1 - C: 86.1 - D: 16.3 - C1: 61.6 - D1: 23.4 - L: 584.2
Weight:	4.34 lbs.
ASME Spec.	ASME B107.100
