15 PC. METRIC COMBINATION ASD WRENCH SET - 12 POINT

Marque: PROTO

Ref Product: wire:J1200P-MASD

Ref Mcmining: PRJ1200P-MASD

Specification:	- Satin finish provides corrosion resistance and a slip resistant grip. - 12 point box end allows for fine indexing, helping to improve speed and access. Fits 4, 6 and 12 point fasteners. - Anti-Slip Design (ASD) open end. -Patented locking grooves help prevent the wrench from slipping off the fastener when turning. -The arched surfaces are designed to spread the contact forces over a greater area. -Loads are kept off the corners of the fastener which helps prevent fastener rounding. - Metric sizes 9mm and smaller do not have ASD feature. - Box ends incorporate the TorquePlus™ system. - Proto® TorquePlus™wrenches are ideal for use on stubborn or damaged fasteners, and also on fastenersmade fromsoftmaterials. - The TorquePlus™ design is a high performance drive configuration which allows for quick and easy wrench engagement to the fastener flats, not the corners. - The TorquePlus™ configuration employs a radius-corner design, shifting contact area and stress away from the fastener corners and distributing contact stresses over a large area of the box end, minimizing slippage. - The TorquePlus™ internal design minimizes fastener rounding, helps to extend fastener life, and allows the user to more easily turn worn, rounded, or rusted fasteners. - Weight: 4.25 lbs.
